

23 & 30 AUGUST 2017 HOT DOG, IT'S MOVIE NIGHT!

“Uncovering the Truth About Dinosaurs!!”

“Uncovering the Truth about Dinosaurs” explores the most fascinating and mysterious creatures of all time - dinosaurs. We know they existed because we’ve discovered their footprints and fossilized bones. But the facts of their existence - and their extinction - remain shrouded in mystery. What were the dinosaurs? When and where did they live? How and when did they die? And why does it matter to Christians? The answers to these mysteries are buried in Earth’s layers and revealed in the pages of the Bible. Studying evidence from paleontology, geology, biology, archaeology and history, we’ll get to the bottom of the story and unearth the real truth about dinosaurs.” (From the DVD jacket, copyright 2016 Institute of Creation Research.) The DVDs will probably be most appropriate for those 4th Grade and up. For those younger, we’ll have an age appropriate DVD in the Nursery.

23 August: Episode 1: Digging into Dinosaurs

Episode 2: Dinosaurs and Dragons

30 August: Episode 3: Dinosaurs and the Flood

Episode 4: The Hard Truth
